A Note About STANDARDS

It is our goal to help schools, teachers and students measure up to the challenge of new state, provincial and federal requirements. In recent years, K-12 education has had to become far more

accountable. With this in mind, we have developed a special part of our website showing how our titles will help you meet today's challenges of assessments, accountability and the need to teach to standards.

For more detailed information on how our titles have been aligned to the standards, please visit: www.SongsThatTeach.com and click the link [Standards](#).
