Renaissance Accelerated Reader

www.renaissance.com

Turn Every Student Into a Successful Reader:

Accelerated Reader® from Renaissance® empowers students to take ownership of their reading practice and progress. Engaging quizzes, goal setting, and reading recommendations motivate students to read more, strengthening critical language comprehension and word recognition skills identified by the Science of Reading.

As a dynamic reading practice tool: Accelerated Reader complements and enhances structured and science-based core and supplemental curriculums by encouraging broad reading practice and engagement with texts—a critical piece of a comprehensive literacy framework. By fostering consistent reading habits, Accelerated Reader helps boost literacy growth, ensuring students build the skills they need to succeed.

Curriculum Support: Accelerated Reader supports core instruction through a wide selection of quizzes that focus on academic subjects such as social studies and science. Its wide range of quizzes enables teachers to incorporate Accelerated Reader into their instruction and improve subject matter comprehension.

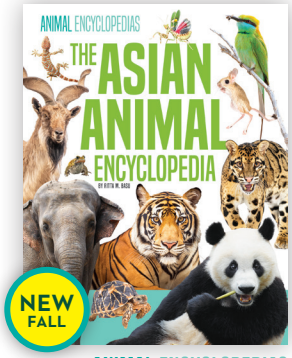

Over 10,000 Accelerated Reader quizzes are available on ABDO titles – nearly 5,000 quizzes are for books published since 2015

Encyclopedias

Science Encyclopedias

Today's meteorologists use sophisticated equipment to track and predict the weather.

Observing the current weather is one thing. Being able to predict what weather will happen in a few hours, days, or even weeks can be extremely challenging. This is the goal of a branch of science called meteorology. The word *meteorology* comes from the Greek word *meteoros*, meaning "in the air," and the Greek word *logia*, meaning "to discuss, study, or explain." Meteorology is the science and study of Earth's atmosphere, weather, and climate. The ancient Greeks are credited with beginning the science of meteorology around 350 BCE.

The scientists who are trained in this field are called meteorologists. They usually have at least one college degree in meteorology or related sciences and are trained to use scientific equipment and methods to study and predict weather. In some cases, people who have specialized training through the military or another organization are also called meteorologists.

All weather forecasting is done by meteorologists. Sometimes weather reporters will appear on television to report what the weather will be. They will use information prepared by

Specialized meteorologists work for the US military.

Explore the world of creepy-crawly bugs, examine the human body's fascinating systems, study the wonders of space, and learn about Earth's weather with these information-packed books. This series offers in-depth details on the most intriguing science topics. This encyclopedia set is sure to leave readers with a greater understanding of topics both in and out of this world!

Outdoor Encyclopedias

spending the night away from home, typically in a tent. But camping can also mean sleeping out under the stars, in a simple shelter, or in a recreational vehicle (RV). Camping and hiking are often combined. People may camp somewhere so they can hike nearby. Or they may go on a long hike, camping each night along the way.

Hiking is a great way to exercise and spend time outdoors.

People may enjoy camping because it allows them to unplug from technology.

Many people feel drawn to wild places. Hiking and camping are popular outdoor activities. Hikers typically follow a trail through a natural area such as a forest. Camping means

Many people enjoy spending time in the great outdoors. These information-packed books cover many different ways people can choose to get outside. This series is filled with information on the equipment, safety precautions, and basic knowledge required for successful experiences with camping and hiking, fishing, hunting, and wildlife watching. This encyclopedia set is sure to give readers all they need to know about their favorite outdoor activities.

US Military Encyclopedias

Grades 3–9
Reading level: Grade 5
Encyclopedias

In this series, readers will learn about the six US military branches, their jobs, and their special operations forces. Readers will dive into history and discover what major wars the United States has taken part in, and they will learn about the latest weapons and vehicles that the US military uses to defend the country.

Aligned to Common Core standards & correlated to state standards

"The narratives are straightforward and informative."

Encyclopedias

Makerspace Encyclopedias

1. Preheat the oven to 350 degrees. Put paper liners in the muffin tin. In a large bowl, whisk together the flour, baking powder, and salt. Set this bowl aside.
2. In a medium bowl, whisk the lemon zest, butter, and sugar until fluffy. Mix in the egg, vanilla extract, and buttermilk. Add the butter mixture to the flour mixture. Mix well.
3. Fill the paper liners two-thirds full of batter. Bake 16 minutes. Let the cupcakes cool.
4. Remove the cupcakes from the muffin tins. Use a teaspoon to make a hole in the top of each cupcake. Fill the holes with lemon curd.
5. Make the frosting. Put the butter and cream cheese in a medium bowl. Beat with an electric mixer until creamy. Mix in the powdered sugar and vanilla extract. Frost the cupcakes.

TOOLS & EQUIPMENT

paper liners	measuring cups	scoop
muffin tin	measuring spoons	electric mixer
mixing bowls	zester or grater	plastic bag
whisk	silicone spatula	

This informative series will teach readers about baking, cooking, crafting, and fiber arts. Readers will learn about the tools and techniques associated with each topic. Dozens of step-by-step projects will guide readers to cook and craft their own creations. All projects are divided topically for easy reference. This encyclopedia set will equip readers to bake, cook, and craft in their own makerspaces.

The Science of Fun

From riding a roller coaster to riding a wave, there are many ways to have fun. Some people enjoy playing catch with friends. Others prefer zipping down a waterslide. This series lets readers examine the science behind all of their favorite activities. Whether it's swinging at a playground or having a snowball fight during the winter, understanding the science of each activity can make both science and the activity more interesting and fun!

Kid Chemistry Lab

Free! Online Resources
ABDOBOOKLINKS.COM

"A solid purchase for libraries to support classroom instruction and update collections."
– *School Library Journal, Series Made Simple,* November 2022

Readers will learn the basics of chemistry in an easily digestible way. The book *Breaking Down Chemistry* provides an overview of the field of chemistry. Then the other books explore specific concepts of chemistry, such as matter, elements, chemical reactions, and atoms. Information is explained using relatable real-world examples and supported with graphics and photos.

Wild STEM

"Very useful for introducing STEM careers, classroom research on careers in STEM, and satisfying individual curiosity about the various jobs available in 'wild' settings."
– *School Library Journal, Series Made Simple,* April 2024

This engaging series introduces readers to high-interest careers in outdoor STEM fields. Each title explores STEM careers based in a different outdoor setting and focuses on the newest techniques and technologies being used in them.

Fascinating Food

Grades 6–12
Reading level: Grade 8
Essential Library

Food is the foundation of life. Before food gets to someone's plate, it must be grown, processed, shipped, delivered, prepared, marketed, and sold. The modern world of food intersects with culture, science, economics, and virtually every other part of the human experience. Fascinating Food examines these connections, along with the intriguing and often unexpected stories behind the foods we eat every day.

Free! Online Resources ABDOBOOKLINKS.COM

Human error has led to major floods and nuclear disasters. Oversights and miscalculations can result in cars bursting into flames and aircraft falling out of the sky. This series explores what went wrong in such disasters and why it is important for everyone involved, from engineers to maintenance crews, to be careful and responsible in their work.

Sports Video Games

Grades 3–9
Reading level: Grade 4
SportsZone

Sports video games began as humble activities with simple graphics in the 1970s and 1980s. Today, these games virtually mirror the real-life sports they celebrate. In many cases, playing sports video games has become a sport of its own. Sports Video Games introduces readers to the history of their favorite sports games.

Making Media

Grades 6–12
Reading level: Grade 8
Essential Library

Today, more media is available to everyday people than ever before. At the same time, there have never been more ways for people to create and distribute media of their own. Making Media explores both the technical and artistic sides of making books, movies, music, podcasts, video games, and web content. The series covers the tools and techniques that professionals use to create these different forms of media. It also discusses how independent creators can use consumer-level technology to make their own media.

Strength in Numbers: Animal Groups

Grades 4–8
Reading level: Grade 5
Core Library

Many animals live or work in groups. Some travel in large groups to protect themselves from predators. Other animals join together to hunt. No matter their size, groups are an important part of survival for many animals. This series demonstrates the social structures of animal groups, exploring why they form and how they help different species.

Drugs in Real Life

"The coverage is current and the detail within these books would make for a nice addition to any nonfiction collection for teens and adults. Recommended."
– *School Library Connection*, May/June 2019

This series aims to give teen readers a comprehensive look at drugs in America: what they are, how they affect users, what laws and policies surround them, and what other related controversies are impacting society.

Strong, Healthy Girls

"The Strong, Healthy Girls series is a valuable source of information for young women who are navigating the teen world and encountering new, complex, and possibly confusing experiences. A great resource for high school and public library collections for youth."
– *Booklist*, July 2021

This series deals with current issues designed to promote girls' self-esteem, self-worth, health, and general understanding of the individual's identity. Each book reinforces "life skills" in an approachable, contemporary tone and style, with groundings in wellness programs, teen psychology, and standard social settings. References to current trends will be used in the text and in the design elements. Each chapter addresses one issue within the topic of the title, using a fictional character to demonstrate the issue through narrative.

Essential Fitness

Grades 6–12
Reading level: Grade 8
Essential Library

There are hundreds of ways to exercise. From low-impact workouts such as walking or swimming to more intense high-impact activities such as running and lifting weights, how people choose to exercise depends on their individual preferences. Some options are derived from ancient practices, while others are relatively new ideas. Essential Fitness gives readers a detailed look at several popular exercise practices and explains their benefits for both the body and mind. The series also offers visual guides, as well as tips on the latest technology to help readers understand health and fitness.

Essential Literary Genres

Grades 6–12
Reading level: Grade 8
Essential Library

This series walks readers through the process of constructing analysis papers. After an introduction to analyzing literary genres, each book features four sample analysis papers accompanied by summaries of the works under discussion. Each of the four analysis papers will take a work from the genre and examine the work through a different critical lens, writing technique, theme, or aspect of the genre.

"This set uses tools that enable students to better understand each major genre... [and] works within each title give students a strong grasp of storytelling, characters, setting, and point of view. The series would be a good asset for secondary schools with literature and Advanced Placement classes as well as book clubs. I would recommend this series for your students and professional libraries. Recommended."

Essential Literary Themes

Grades 6–12
Reading level: Grade 8
Essential Library

Literature and Western culture abound with recurring themes, archetypes, and allusions. This series walks readers through the key process of constructing analysis papers. Each book features four sample literary papers accompanied by summaries of the works under discussion, which may include books, poems, plays, films, and other works of literature. Each of the four samples highlights a different critical lens, writing technique, or aspect of the theme.

Core Library Guide to Racism in Modern America

Grades 4–8
Reading level: Grade 4
Core Library

Racism is a problem deeply rooted in American society. Slavery and segregation may no longer be legal, but their legacies still influence the way Black people and other people of color are treated today. Racism exists in the justice system, politics, and the media. This series introduces readers to some of the history of racism in the country, how it affects people today, and how some are working toward equal treatment for all people.

They include stealing things of little value. The majority of the Louisiana Supreme Court justices saw no reason to take another look at Bryant's case.

OFFENDERS TREATED DIFFERENTLY

Bernette J. Johnson was the first Black justice on the Louisiana Supreme Court. She was also the only justice who supported a review of Bryant's case. She wrote her opinion about Bryant's situation. She said the laws that led to Bryant's punishment were linked to slavery and racism. The Civil War (1861–1865) ended slavery in the United States. In the years that followed, many

THE BLACK MAJORITY
Habitual offender laws affect Black defendants more than those of any other race. Almost 80 percent of the people serving habitual offender sentences in Louisiana are Black. But Black people make up just 32.8 percent of the state's population. The law is much more likely to affect Black people.

The Louisiana Supreme Court building is in New Orleans.

★ STARRED REVIEW ★

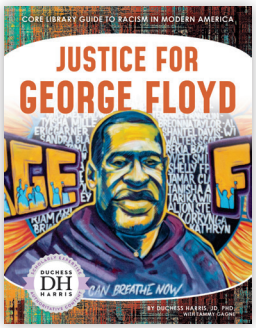

Protesting Police Violence in Modern America

"This is a hot-button topic that inspires a lot of strong feelings, and this volume is admirable in its neutral tone, its adherence to facts, and its avoidance of bothsidesism."

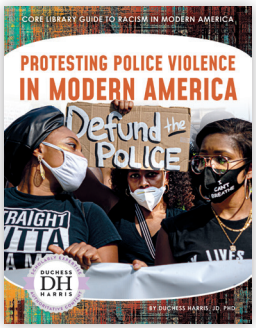

– *Booklist,* April 2021

"A solid purchase about current racism in the United States. The standout title *Race and the Media in Modern America* is a highly recommended purchase; it presents timeless information that is not as often found in other series about modern race relations in the United States."

– *School Library Journal, Series Made Simple,* April 2021

DUCHESS HARRIS COLLECTION

Grades 4–8

Freedom's Promise

History is shaped by people who work for change. Throughout history, those who have faced discrimination have made significant accomplishments while fighting to secure their rights. Some of these achievements have become well known, while others are more obscure. Readers will discover important events and the people who have influenced society, science, culture, and the arts.

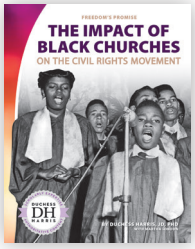

Aligned to Common Core standards & correlated to state standards

"Students will find well-researched and informative titles in the Freedom's Promise series. The short sentences, large photographs, charts, and diagrams will keep young researchers interested. Related links to videos and articles, quotes, suggested activities, and thoughtful questions will have readers thinking even deeper about each topic's continued influence."

American Values and Freedoms

Grades 6–12
Reading level: Grade 8
Essential Library

Since 1776, the rights of American citizens have continuously evolved, and they remain hotly debated today. This series examines the freedoms and values that Americans hold dear, including their historical importance and the application of these freedoms through the years. The series critically examines these ideals, while encouraging readers to think critically about them too.

Reading level: Grade 8
Essential Library

Race and American Law

"Harris' explanations are clear and allow young readers to easily understand complex subjects. The topic overviews are ideal for history, civics, or classroom libraries. Harris' texts are perfect for middle schools where value is placed on content that is not overly simplified but also not too difficult to grasp. Recommended."

– School Library Connection, May/June 2020

This series offers narrative history and analysis of key aspects and issues of the legal history of racism. Books aim to provide a balanced—and, at times, revealing—look at legal and systemic racism in the United States, allowing readers to form their own opinions on the subject.

With the success of Black athletes in sports such as professional football or basketball, at first glance it may seem like American sports are a pillar of racial equality. However, a closer examination of the industry and its structure proves otherwise. This series examines the bias and discrimination against nonwhite athletes that is ensconced (yet often invisible) in American sports.

Slavery in America

Grades 6–12
Reading level: Grade 8
Essential Library

Four hundred years ago, Africans arrived in the American colonies not of their own free will but rather forced to the continent as slaves. America was built partly on the labor of enslaved people, a fact that created far-reaching social, economic, and political implications that continue to the modern day. This series examines the history of slavery in America and why it matters today.

Aligned to Common Core standards & correlated to state standards

"This series thoughtfully studies how slavery has impacted (and stunted) the growth of the United States. Libraries in need of titles on this topic or looking to update older titles should certainly add this series to their collection. Recommended."

Sheep, which are easier to raise than larger livestock such as cattle, are a popular choice for young 4-H members.

Youth in 4-H often help their communities. But sometimes communities help the youth. Nine-year-old Idaho 4-H member Makenzie Peters was raising a sheep, Rose, to show in 2023. That summer, doctors discovered a mass on the girl's brain. She had two brain surgeries. Her friend, Dash Jones, was raising his own 4-H sheep at the time and cared for Rose while Peters recovered. He made sure Rose was ready for the Gem/Boise County Fair.

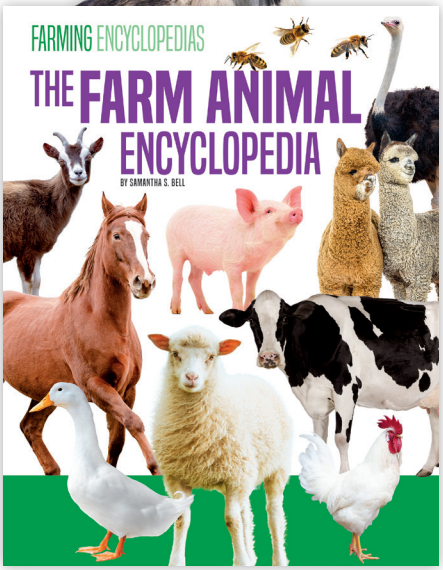

The day before the fair, Peters's doctor gave her permission to go to the fair and show Rose. She did, and her whole 4-H club showed up to support her. Later, when her sheep was up for auction, people began bidding on Rose. Then they began

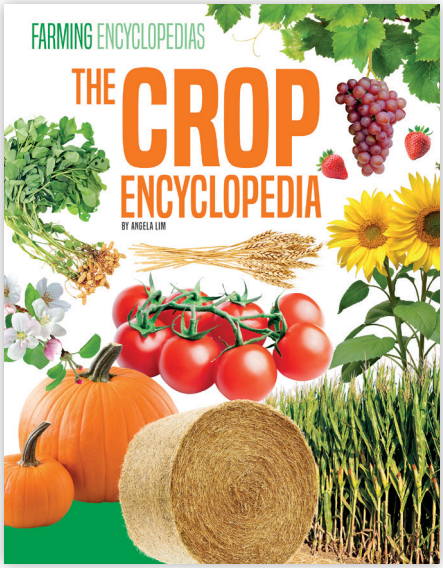

pledging add-on bids, and altogether the auction raised more than $27,000 to help Peters's family pay for ongoing medical expenses.

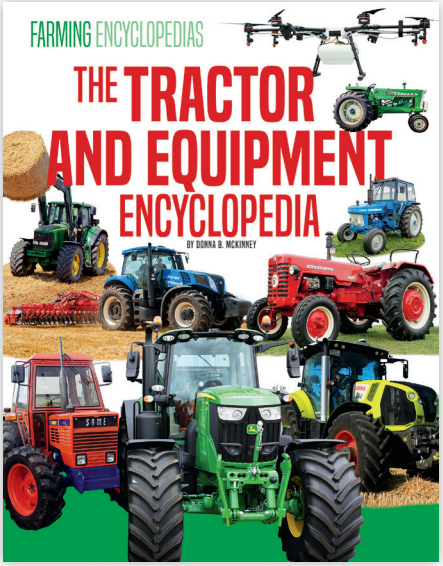

4-H members may be involved in livestock auctions. The money from auctions is sometimes used to support the community.

Mining in America

Grades 4–8
Reading level: Grade 4
Core Library

The United States has a long history of mining. Policies help keep miners safe. New technologies make it possible to mine more materials than ever before. While mining impacts people's daily lives, it also impacts the environment. This series examines the pros and cons of mining, describing how the industry has evolved throughout US history.

Crisis in Ukraine

Grades 5–9
Reading level: Grade 5
Abdo & Daughters

On February 24, 2022, Russian president Vladimir Putin announced that Russia would perform a special military operation in neighboring Ukraine. Within minutes Russian troops had invaded Ukraine and missiles were flying. The world watched as the political, economic, and humanitarian fallout ensued. This series examines the war, the circumstances that led to it, and influential individuals involved.

Serial Killers

"This series offers an in-depth exploration of infamous killers, focusing on their victims, methods, and capture. thorough, balanced, and somber look at history's most infamous killers."
– School Library Journal, Series Made Simple, April 2025

Notorious serial killers have long captured the public imagination, inspiring feelings of shock, disgust, and fear. The frightening, unimaginable murders raise countless questions. When these high-profile criminals strike, the public closely follows the news as law enforcement works to identify, track, and arrest them. The Serial Killers series examines several infamous cases, detailing the lives of the killers, how they were eventually caught, and the societal impact of their terrible crimes.

Essential Survival Stories

Earth is full of extreme environments. From soaring mountain peaks to arid deserts to rain-soaked jungles, nature's extremes are both admired and used to test people's limits in surviving them. These landscapes each have a variety of dangers, and not everyone who ventures into them comes out alive. Essential Survival Stories examines the challenges that people have faced in the wilderness and how they have survived. It also offers safety and preparedness tips for anyone looking for an outdoor adventure.

Law Enforcement

In recent years, true crime podcasts and television shows such as *CSI* and *Law & Order* have exploded in popularity. People are fascinated with how law enforcement uses science to solve even the most challenging crimes.

The word *forensic* is from a Latin term. In ancient Rome, it meant to argue a criminal case. Today, *forensic science* refers to scientific evidence that can be presented in a court of law.

Forensic science is a crucial part of today's criminal justice system. It includes a huge range of fields, from the art of facial reconstruction to the laboratory science of genetic identification. Evidence helps investigators figure out how a crime happened, and maybe why it happened. Good forensic evidence can put criminals in jail or set the innocent free.

Evidence is collected at a crime scene, bagged, and sealed until forensic scientists can examine it.

4

The role of law enforcement in society has been front and center in recent years. This series examines the many kinds of police jobs available, from street cops to K9 handlers. Readers will discover how to become a cop, what duties cops perform, and how officers protect and serve their communities. Readers will also learn about the most up-to-date equipment and techniques to catch criminals.

When Mahomes threw across his body, DeJean was ready. He cut in front of the receiver and intercepted the ball in stride. He raced back toward the other side of the field as the Chiefs' offense gave chase. He made it to the sideline near the Kansas City end zone. He then planted and cut back. Two Chiefs linemen were there, but neither could get a hand on DeJean. He crossed the goal line, then wheeled back to celebrate with his teammates. "I was running around like a little kid," DeJean said later. "I didn't have any celebrations planned."

"I WAS RUNNING AROUND LIKE A LITTLE KID. I DIDN'T HAVE ANY CELEBRATIONS PLANNED." —COOPER DEJEAN

COMPLETING THE ROUT

Elliott added the extra point after DeJean's pick six for a 17-0 lead. That was still the score when Kansas City took over at its own 6 with 1:49 left in the half. Though the Eagles had shut down Mahomes all half, he still had time to get points on the board. Philadelphia knew that could change the dynamics of the second half in a big way.

Players pour Gatorade on Eagles head coach Nick Sirianni near the end of Super Bowl LIX.

Mahomes took the snap in the shotgun formation. Standing on his own goal line, the quarterback was bumped as he tried to throw over the middle, where Baun was waiting. As the ball came low to his right, Baun lunged. The linebacker made a spectacular diving interception, extending his arms to pull the ball in at the 14.

10

Philadelphia quarterback Jalen Hurts holds the Vince Lombardi Trophy after Super Bowl LIX.

Two plays later, Philadelphia's offense put the finishing touch on an incredible half. Quarterback Jalen Hurts lobbed a 12-yard touchdown pass to receiver A. J. Brown. The Eagles took a 24-0 lead into the break. They had allowed the Chiefs only 23 total yards. Thanks to a pair of interceptions by two of the team's new faces, the Super Bowl rout was on. Philadelphia went on to win 40-22 to claim the team's second Super Bowl title.

BIRTHDAY BOYS

Cooper DeJean was celebrating his 22nd birthday on Super Bowl Sunday in 2025. But he wasn't the only Eagle who had a spectacular birthday. The team's star running back, Saquon Barkley, turned 28 on the day of the game. Barkley finished with 57 yards rushing and 40 receiving yards as he won a Super Bowl title for the first time.

Eagles running back Saquon Barkley had a team-high six pass receptions in Super Bowl LIX.

"Sports fans will relish these well-written books, which should be welcome additions in most libraries."
– *School Library Journal, Series Made Simple,* April 2024

Grades 3–9
Reading level: Grade 4
SportsZone

The Super Bowl isn't just a big deal in the United States. It's one of the biggest sporting events in the world. It wasn't always that way, though. The first Super Bowl was played on January 15, 1967. At the time, it was called the AFL-NFL Championship Game. The NFL champion Green Bay Packers beat AFL champion Kansas City 35–10. Though that game didn't sell out, it set a foundation from which the Super Bowl grew. Great dynasties, traditions, and sideshows are all part of what makes the game such a big event.

Green Bay proved to be the first Super Bowl power when it won the next year, too. Now the trophy given to the Super Bowl winners is named after the Packers' legendary coach, Vince Lombardi. The first true Super Bowl stunner came after the 1968 season. At that point, the AFL teams

Green Bay Packers running back Elijah Pitts (22) scores a touchdown late in the third quarter of the first Super Bowl.

"Filled with fascinating facts and engaging writing, this series is a real winner. A first purchase."

– School Library Journal, Series Made Simple, April 2022

ONE-ON-ONE HOCKEY

Even four-on-four hockey didn't significantly reduce the number of ties, however. So the league further refined its approach. In 2005–06, the league got rid of ties. Overtime stayed the same, but if nobody scored in five minutes of play, the game would be decided by a shootout.

Shootouts had been a feature of international hockey since 1992. They were used that year at the Winter Olympics. Shootouts are an exciting way to end a hockey game. Each team picks three shooters to face the opposing goalie one-on-one. Fans usually stand and cheer as they watch their hometown team try to pull off the win.

But shootouts are also a bit random. Even the best scorers don't succeed much more than 50 percent of the time. And it narrows down an entire game into an individual contest between two players.

When ties were eliminated in 2005–06, shootouts were used to determine a winner if nobody scored in overtime.

In the modern NHL, another innovation rewards teams for making it to overtime. The 2005–06 season also saw a new point structure. Teams still earned two points for winning

22 23

Sports Innovations

Few of today's most popular sports look exactly as they did in the past. Technology has evolved, strategies have changed, and the athletes themselves have become bigger, better, and faster. And the sports have changed right along with them. Sports Innovations examines specific advancements in these areas and the impact they've had on the games we love to watch and play.

Sports Brands

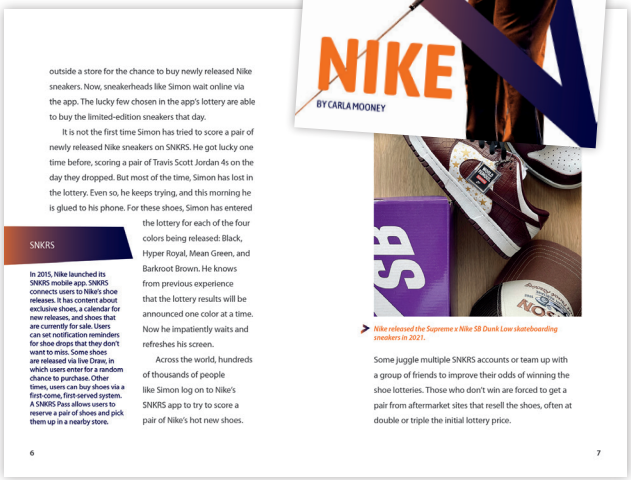

Grades 6–12
Reading level: Grade 8
Essential Library

Sports Brands takes an in-depth look at some of today's biggest sports clothing companies, including how they started, how they grew and changed over the years, how they have worked with leagues, teams, and athletes, and their roles in the lives of everyday consumers.

Aligned to Common Core standards & correlated to state standards

"The writing is solid and age appropriate."
– School Library Journal, Series Made Simple, November 2022

outside a store for the chance to buy newly released Nike sneakers. Now, sneakerheads like Simon wait online via the app. The lucky few chosen in the app's lottery are able to buy the limited-edition sneakers that day.

It is not the first time Simon has tried to score a pair of newly released Nike sneakers on SNKRS. He got lucky one time before, scoring a pair of Travis Scott Jordan 4s on the day they dropped. But most of the time, Simon has lost in the lottery. Even so, he keeps trying, and this morning he is glued to his phone. For these shoes, Simon has entered the lottery for each of the four colors being released: Black, Hyper Royal, Mean Green, and Barkroot Brown. He knows from previous experience that the lottery results will be announced one color at a time. Now he impatiently waits and refreshes his screen.

Across the world, hundreds of thousands of people like Simon log on to Nike's SNKRS app to try to score a pair of Nike's hot new shoes.

SNKRS

In 2015, Nike launched its SNKRS mobile app. SNKRS connects users to Nike's shoe releases. It has content about exclusive shoes, a calendar for new releases, and shoes that are currently for sale. Users can set notification reminders for shoe drops that they don't want to miss. Some shoes are released via live Draw, in which users enter for a random chance to purchase. Other times, users can buy shoes via a first-come, first-served system. A SNKRS Pass allows users to reserve a pair of shoes and pick them up in a nearby store.

6

Nike released the Supreme x Nike SB Dunk Low skateboarding sneakers in 2021.

Some juggle multiple SNKRS accounts or team up with a group of friends to improve their odds of winning the shoe lotteries. Those who don't win are forced to get a pair from aftermarket sites that resell the shoes, often at double or triple the initial lottery price.

Americana

"Good for students or classrooms needing an overview of the subjects.... Dedicated to connecting readers with art and history."
– *School Library Journal, Series Made Simple*, April 2024

Each title explores a different aspect of Americana, starting with how the title topic was established and continuing through its evolution and how it became part of the nation's identity. The text provides historical context for each title topic, including the social, economic, political, and technological frameworks that influenced or defined its popularity, growth, and modern advancements.

TWO

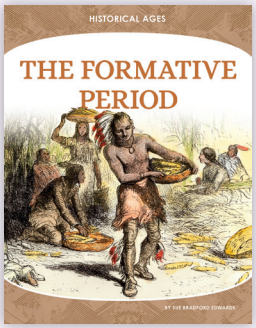

EARLY ARCHAIC

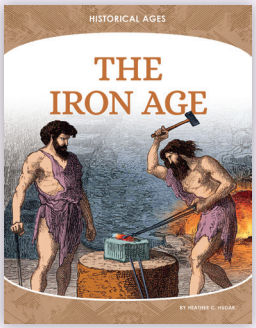

The Early Archaic Period was the first subperiod of the Archaic Period. In North America, it lasted from about 8,000 BCE to 6,000 BCE. It was a time of transition from the Paleo-Indian Period that came before it.

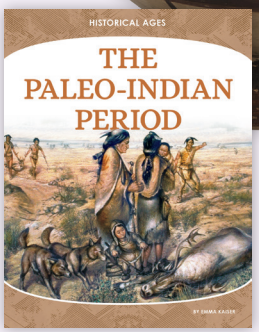

Very little evidence of the Early Archaic has been found, so knowledge about the period is limited. However, the discovery of tools, burial sites, and social gathering sites has provided clues about how Early Archaic peoples lived.

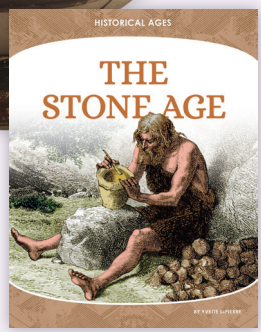

Archaeologists have found more than 8,000 stone points at the Poverty Point site.

World War II

Grades 4–8
Reading level: Grade 5
Core Library

World War II was the biggest and deadliest war in history. From 1939 to 1945, more than 50 nations fought across the globe as some nations invaded others to expand their own borders. This series explores the causes, leaders, and major battles of this conflict, while also exploring its outcomes and legacy today.

Military vehicles are machines capable of transporting soldiers and supplies. But they can also be used as weapons. Military vehicles are used in battles on land, at sea, and in the sky. They include machines such as tanks and aircraft. Often they are designed with armor to keep the vehicles and soldiers safe. They are also armed with weapons to attack opponents.

TANKS

Tanks were used by many countries during World War II and had a huge impact in battle. Tanks are large, heavily armored land vehicles.

The British Supermarine Spitfire was an important plane during World War II. The aircraft had eight machine guns.

Atomic Bomb Perspectives

Grades 4–8
Reading level: Grade 4
Core Library

In August 1945, the US government dropped two atomic bombs on Japan to end World War II. The bombings forced Japan to surrender, but they left a complicated legacy. Survivors, soldiers, scientists, and many other people had their own perspectives on the bombings. This series helps readers explore the different experiences and points of view, giving readers firsthand accounts of historic events.

develop nuclear power. In exchange, the countries were supposed to promise to not make nuclear weapons. But countries such as India and Pakistan used this information to make nuclear weapons in the 1960s and 1970s.

DANGEROUS WASTE

Nuclear energy is cheaper to develop than traditional power sources. These sources include fossil fuels such as coal, oil, and gas. Fossil fuels are expensive to buy and burn. Nuclear energy uses water and uranium, which are more affordable.

Additionally, burning fossil fuels releases carbon dioxide and other gases. These gases are called greenhouse gases. They trap heat in Earth's atmosphere. Too much of these gases causes global temperatures to rise. Nuclear power is an alternative energy source. In a nuclear power plant, uranium atoms are split in a reactor. This releases energy as heat. The heat turns water into steam. The steam powers a machine that is connected to a generator. The generator produces electricity. This process does not release greenhouse gases. Many people promoted nuclear power for this reason.

The first working nuclear power plant was built in Obninsk, the Soviet Union, in 1954. Within four years, England and the United States also had nuclear power plants. These power plants did not create the pollution

The Obninsk Nuclear Power Plant was in operation for 48 years. The plant's control center was preserved and can be seen in Russia today.

American Crime Stories

"True crime stories continue to fascinate; those looking for information on these famous cases will find these books helpful."
– *School Library Journal, Series Made Simple,* April 2020

"A good purchase to support criminal justice electives."
– *School Library Journal, Series Made Simple,* April 2024

Shocking and scandalous crime stories often capture the American public's attention. Conspiracy theories emerge, too, despite systematic, professional investigation. Some questions still remain unanswered in many famous cases. Dig into the American Crime Stories series to start sleuthing.

In the 1800s, overhunting and habitat loss drove the elk in Great Smoky Mountains National Park to extinction. Rangers reintroduced elk to the park in 2001.

The park's beautiful plant life is also a draw for visitors. The park is often called Wildflower National Park due to the wildflowers that bloom year-round. The park even offers trails called Wildflower Walks that are specifically chosen for wildflower viewing.

Others are drawn to Great Smoky Mountains National Park to view the park's animals. Bird-watchers search for the park's owls and warblers, while hikers hope to catch glimpses of the park's elk herds.

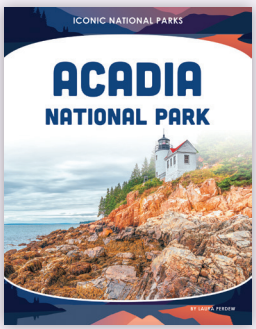

Those looking for animals are advised to seek out open areas such as Cades Cove. Roaring Fork Motor Nature Trail is another popular place to spot deer, elk, black bears, raccoons, turkeys, and other wild animals.

PERSPECTIVES
SOMETHING FOR EVERYONE
According to Emily Davis, a former park ranger and public affairs specialist for the park, the beauty of the Great Smoky Mountains is that there's something everyone will love. She says, "Some people come to see wildflowers and wildlife, some want to challenge themselves on a new trail, some like exploring the park's history, and some want to take a scenic drive." Whatever people's interest, the park offers a wide range of activities.

HIKING AND CAMPING
Hiking and camping are among the best ways to see Great Smoky Mountains National Park up close. There are more than 800 miles (1,300 km) of hiking trails throughout the park. The trails take hikers to caves, bluffs, and old-growth forests, all while providing beautiful

Star Athletes

"A highly readable and inspirational series."
– *School Library Journal, Series Made Simple,* November 2019

Some athletes were child prodigies, seemingly destined for greatness from the first day they stepped onto the field or court. Others were late bloomers who made the most of every opportunity to make it big in their sport. This series examines the lives of star athletes, from childhood through stardom, sharing with readers key moments in the athletes' journeys to become some of the biggest names in sports.

The 2024 Election

In May 2024, Trump was convicted in the state of New York of 34 felony counts of illegally changing business records. It was unclear how this might affect the upcoming 2024 election. In July, however, Trump became the **Republican** nominee for president.

Vice President Kamala Harris received the **Democratic** nomination for president. Harris was the first Black woman candidate for president. She had experience as a US senator and as California's attorney general.

On July 13, while onstage at a campaign rally in Butler, Pennsylvania, Trump survived an assassination attempt. Shots rang out, and one bullet struck Trump's ear before he ducked to safety behind Secret Service agents. Trump later said he was grateful he escaped with his life.

Trump's **running mate** was Ohio senator JD Vance. Supporters liked that Vance had grown up in poverty and built a successful political career. They thought Vance would relate well with working class voters who largely supported Trump.

32

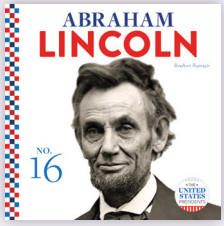

Trump raised his fist in a show of determination immediately following the July assassination attempt.

Election Day was November 5, 2024. Many thought it would be close. Trump won the election with 312 **Electoral College** votes. Harris lost with 226 Electoral College votes.

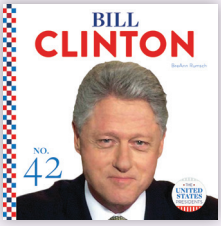

In the weeks and months that followed, Trump prepared to return to the White House in January 2025 and deliver on campaign promises. He said he would strengthen the economy, improve border security, and provide tax relief for many Americans. The American people waited to see what he would do with his second term as US president.

broadcast on FOX, one of the most-watched networks. FOX had never aired a Big Ten women's basketball game before. But Clark changed that.

Clark made the most of playing in front of a wider TV audience. On January 7, 2023, FOX aired Iowa's trip to Michigan to take on the Wolverines. Michigan was one of the best teams in the Big Ten. Clark wasn't fazed, as she scored 28 points and grabbed 8 rebounds to stun Michigan fans and lead Iowa to a 94–85 win.

Three weeks later, FOX broadcast Iowa's home game against Nebraska. This time, Iowa started out slow. The Hawkeyes didn't score a point in the game's first four minutes. With the team down 8–0, Clark hit a three to put Iowa on the board. The floodgates opened from there. Through Clark's pinpoint shooting and crisp passing, the Hawkeyes took control of the game. Clark finished with 33 points, 12 rebounds, and 9 assists to cap off another great performance.

Clark didn't hog the ball from her teammates. She tallied at least 8 assists in 11 straight games

24

Clark faced Cotie McMahon, *right*, and the Ohio State Buckeyes on January 23, 2023.

starting in early January 2023. That included a 15-assist performance at Ohio State University to hand the Buckeyes their first loss of the season. For the second season in a row, Clark led the country in assists per game.

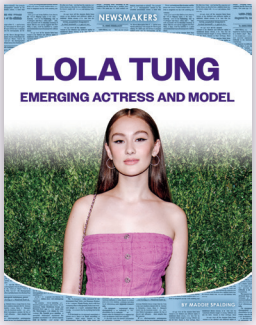

Clark continued her hot streak into the Big Ten Tournament. Thousands of fans flocked to Minneapolis,

LOCAL LEGENDS

-3-

Oak Tech was also one of the top junior high schools in the state, both academically and athletically. They were undefeated every year and always seemed to send players to the biggest and best high schools in Michigan.

People around town would frequently say, "If anyone ever wants to be an elite basketball player, he should transfer to Oak Tech."

They were one of the few schools that had money to have honors band programs, after-school STEM classes, and college prep classes. Their athletics program boasted the newest and best equipment and uniforms.

Many of my friends were jealous, but I wasn't.

14

THE BUZZER BEATER

I was from Detroit; I wanted to
got.

Many students would leave
school and transfer to Oak Tech
That school and its extracurricu
like a magnet, pulling all the goo
blocks to one school.

I hated the idea.

How can someone just up and leave friends of a lifetime?

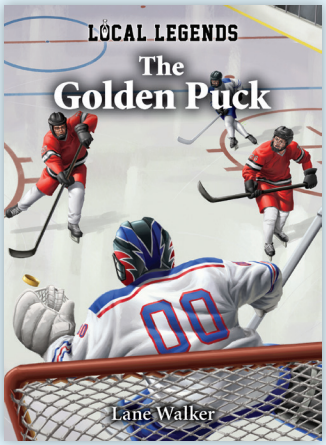

When I was in the fifth grade, countless people would ask me if I planned on transferring to Oak Tech to play basketball. *I have more pride in myself and my friends.*

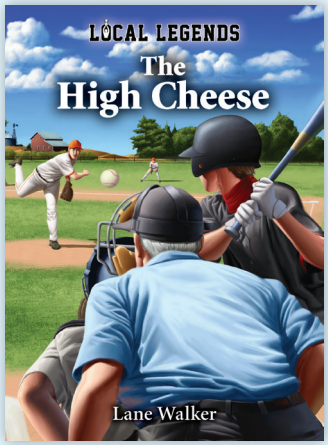

No way was I going to leave my boys to join the cocky Oak Tech Pirates. Unfortunately, not everyone felt that way.

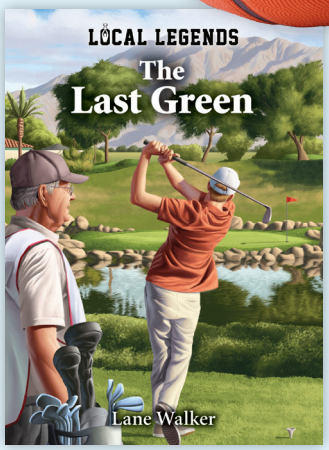

Bobby Simmons, or "B," as we called him, had been one of my best friends since the second grade. Our crew—Zeke, Alvin, Bobby, and I—were nearly inseparable. But all that would change one June day.

C. R. Fulton

yanks him under again. Spurred by his terrified expression, I run forward, not even feeling the rough terrain. I scoop up a wide piece of driftwood and cinch the end of the rope around it. Ethan appears again, just ahead of me. He makes a crazed grab for a low-hanging branch.

72

whirling the driftwood like [illegible]. I let it go and watch the wavering length of rope as it snakes over the water. It splashes, barely visible as the current sweeps it quickly past Ethan.

"Pull it in!"

She's desperately yanking hand over hand, and by the time I'm ready to throw it again, Ethan's grip has slipped to the very tip of the branch.

"Arrgghh!" I roar as I throw, this time far upriver.

"Now!" I shout as the current sucks the driftwood close to Ethan. With a desperate lunge, he lets go of the branch. Everything goes under, and

Bear Grylls Adventures

"A great choice for collections in which adventure stories for reluctant readers are in demand."
– *School Library Journal, Series Made Simple*, May 2025

4

MANY WAYS TO DIE

Olly was now shivering so much he could barely look around.

"What's h-app-en-ed, wh-ere am I…?" he mumbled through chattering teeth. He was still wearing the shorts and T-shirt he had put on to go to bed. The tent and everything else he knew had vanished.

The man was rummaging through a bulky backpack, but despite the cold the first thing he handed Olly wasn't clothes.

35

Each book in this series follows a different child at an outdoor activity camp. Thanks to a magical compass, they meet Bear Grylls in an amazing place. The kids learn new skills and facts that they can take back to their real life.

Adventures of Charlie

NEW! EBOOKS NOW AVAILABLE!

"Wait, what?"

<Don't feed the dragons or else!>

"Dragons? What—" I start to say, but the bright light fades and the music dies.

<LOADING PLEASE WAIT.>

Then the world drops out from under me.

"AHH!" I scream as my stomach flips a thousand times and I free-fall into who knows what.

4

GOOBER'S BROTHER

I slam into a cold, metal floor. Sound bursts all around me. The *clang, clang, bang, bang* of metal on metal. The *brrrrrrrrrrrrrrrrrrrr* of saws on steel. Pushing myself up, I peer around. Everything's blurry, and it's like bees are buzzing around in my head.

"King!" a voice bellows from behind me, deep and low like a bear. "King, get back! Out of the line of fire!"

5

Adventures of Charlie is a zany, fantasy adventure series. Charlie is just trying to be a good kid by helping his mom pack up their moving truck. Then he finds a mystery box. Before he knows it, he's stuck inside a game with real monsters!

I Escaped

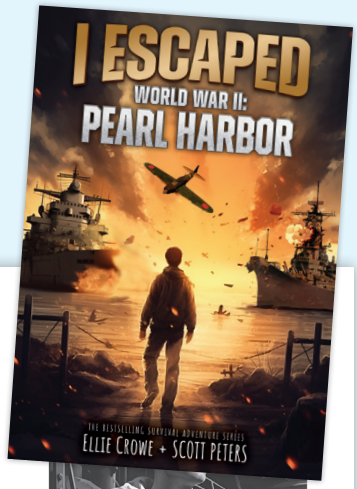

Grades 2–7
Reading level: Grade 2
Chapter Books

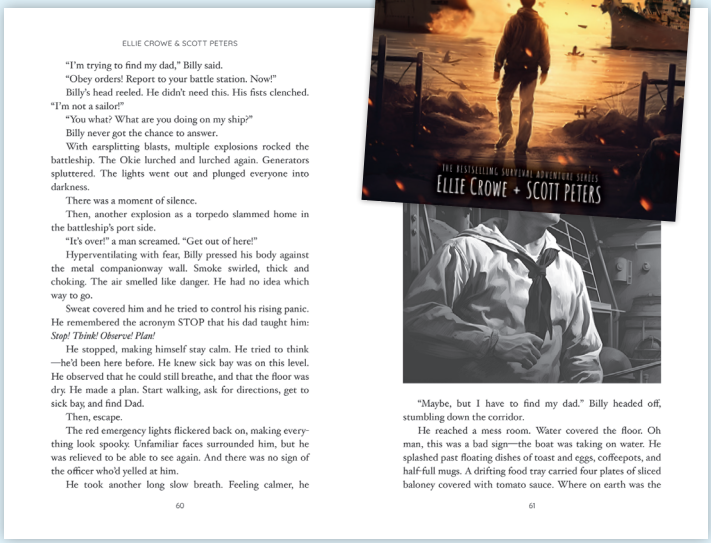

This intermediate chapter book series is sure to appeal to fans of New York Times Bestseller Lauren Tarshis's I Survived adventures and Refugee by Alan Gratz. An empowering must-read for today's turbulent times. This series is for the doers and the dreamers, the cautious and the go-getters and the survivalists in us all.

Aligned to Common Core standards & correlated to state standards

New! Spring 2025

"An excellent addition to collections where Lauren Tarshis's ***I Survived*** series is popular."
– School Library Journal, Series Made Simple, May 2025

ELLIE CROWE & SCOTT PETERS

"I'm trying to find my dad," Billy said.
"Obey orders! Report to your battle station. Now!"
Billy's head reeled. He didn't need this. His fists clenched. "I'm not a sailor!"
"You what? What are you doing on my ship?"
Billy never got the chance to answer.
With earsplitting blasts, multiple explosions rocked the battleship. The Okie lurched and lurched again. Generators sputtered. The lights went out and plunged everyone into darkness.
There was a moment of silence.
Then, another explosion as a torpedo slammed home in the battleship's port side.
"It's over!" a man screamed. "Get out of here!"
Hyperventilating with fear, Billy pressed his body against the metal companionway wall. Smoke swirled, thick and choking. The air smelled like danger. He had no idea which way to go.
Sweat covered him and he tried to control his rising panic. He remembered the acronym STOP that his dad taught him: *Stop! Think! Observe! Plan!*
He stopped, making himself stay calm. He tried to think—he'd been here before. He knew sick bay was on this level. He observed that he could still breathe, and that the floor was dry. He made a plan. Start walking, ask for directions, get to sick bay, and find Dad.
Then, escape.
The red emergency lights flickered back on, making everything look spooky. Unfamiliar faces surrounded him, but he was relieved to be able to see again. And there was no sign of the officer who'd yelled at him.
He took another long slow breath. Feeling calmer, he

60

"Maybe, but I have to find my dad." Billy headed off, stumbling down the corridor.
He reached a mess room. Water covered the floor. Oh man, this was a bad sign—the boat was taking on water. He splashed past floating dishes of toast and eggs, coffeepots, and half-full mugs. A drifting food tray carried four plates of sliced baloney covered with tomato sauce. Where on earth was the

Survive ALASKA

Grades 4–9
Reading level: Grade 5
Claw

Jack Jackson and his best friends love the outdoors, whether it's a weekend hunting trip or a day of fishing on the river. But the boys find themselves in dire situations, and Alaska's wilderness can be unforgiving of even the smallest mistakes. Do they have what it takes to survive it all?

Aligned to Common Core standards & correlated to state standards

New! Spring 2025

Jack scanned the river ahead. Dividing the rapids was a small islet with a patch of trees growing on it.
The shoreline on their right looked close enough that maybe they had a chance of reaching it before they hit the rapids.
"I'm so sorry!" Will shouted. "I fell asleep and I forgot how close we were to the rapids!"
"Let's get out of here!" Jack shouted back.
They all had to raise their voices now because the water was becoming louder by the minute. He crouched by the engine, gripped the black handle of the pull start, and began furiously yanking.

Chapter Books

Halloween isn't until Saturday, but I wanted to make some cookies now so that you girls could bring them to school tomorrow."

"Wow, thanks, Mom!" said Eunice. She looked at me. "You've been working so hard, Mindy. You deserve a cookie break!"

"Yay!" I cheered.

"Come downstairs to eat so you don't get crumbs on the carpet," Mrs. Park said. "I also made ghost-shaped cookies!"

Eunice and I did what she said. While we were eating the cookies in the kitchen, Eunice asked me, "Do you know what you're dressing up as for Halloween yet?"

"Yup! Halloween is my favorite holiday, so Dad and I always prepare super early. We already got our costumes a few weeks ago."

Eunice laughed. "That's so cute! What are you going as?"

"A vet! That's what I want to be when I grow up. How about you?"

Eunice shook her head. "I'm too busy to go

The Worst Witch

Star was in one of the crates, and he began barking wildly when he saw Mildred creeping past.

"He's in here," gasped Mildred, thrilled to find him so easily. "Stop it, boy. Shh! It's all right; it's all right."

But it clearly wasn't all right. The crate was cramped and dark with its heavy canvas cover, and it was more than Mildred could bear, seeing him imprisoned, frenziedly barking and trying to lick her hands through the bars.

81

Lovable but accident-prone Mildred Hubble is possibly the worst witch to ever to go to Miss Cackle's Academy for Witches. Since 1974, millions of readers have enjoyed Mildred's exploits, and now she's back to cast her spell on a new generation of readers.

Seth gave Mandy a salute, and Shona beckoned us to join them. "It's high tide in fifteen minutes," she called up. "We'd better get going."

I turned to Mandy. "Thank you—for everything."

She waved off my thanks. "OK, I'm heading back to the cabin. See you later. Just be careful, OK?"

"We will," I promised.

We piled up our shoes behind a rock. We'd already put our swimwear on underneath our clothes.

"Ready?" Aaron asked as we walked to the edge of the bay and prepared to dive in.

My stomach did a tiny twirl. Yes, it was spooky. Yes, the ship was surrounded by more question marks than portholes. And yes, the mysterious woman had haunted my thoughts ever since I'd seen her.

But this was an *adventure*. No matter what else happened, I was pretty sure we could guarantee it would be a hundred times more exciting than anything that had ever happened on any other Brightport geography field trip.

"You bet." I smiled. "Let's go."

126

We'd been swimming for about ten minutes. It was nearly high tide, and we'd reached the channel where I'd seen the boat yesterday.

"This is definitely where you were last time?" Aaron asked.

"Yeah, I think so, although, to be honest, with all the twists and turns, it looks pretty similar all the way along."

Shona pointed at a bunch of rocks heaped into a dome that looked like an underwater igloo. "It's the same place," she said. "I remember that."

Cupcake Diaries

When Dad walked out of the kitchen, I took the note out of my notebook. For the millionth time, I replayed in my head what I would say and how I would say it. I remembered how proud Dad had been of my Spanish at the tapas bar. He was going to be so disappointed in me. I dreaded giving him this note, and I dreaded telling my mom, too.

As I sat staring forlornly at the note, my dad came running back into the kitchen.

"Mia! Don't you smell that?" he shouted. I looked up, confused, and was shocked to see black smoke coming out of the oven. The cupcakes were burning! My life really was in shambles. Now I couldn't even bake cupcakes anymore. Dad quickly turned off the oven and turned to look at me.

"*Mija*, is something wrong? You've never burned a batch of cupcakes before—especially when you were sitting two feet away from the oven. Is there anything you want to tell me or talk about?" I couldn't put it off any longer. Taking a deep breath, I took the note from Señora Delgado and handed it to him without saying anything.

Dad read it and raised his eyebrows. "Mia, what is this? You're failing Spanish? How is that possible?"

Tears filled my eyes. I couldn't help it.

88

all week that I could talk to my mom. But that weekend I went to my dad's, and that's when it all came out.

It was after dinner on Friday, and I knew I had to bring up the note from Señora Delgado. But as you know, I love to put things off. So I decided to bake a batch of cupcakes first. My dad loves chocolate, so I made a quick, easy batch of chocolate cupcakes. Soon a delicious, chocolaty aroma was wafting through the entire apartment.

"Something sure smells good, *mija*," Dad said with a smile as he walked past the kitchen.

"They'll be ready soon," I promised.

Reading level: Grade 2
Chapter Books

Your readers will sink their teeth into this hilarious, action-packed middle grade series that turns classic monsters into the most unexpected heroes ever. Bram Murray is a foster kid who thought he was different. He never imagined that he's the world's last living vampire—or that he's being hunted! After escaping a werewolf ambush, Bram discovers the Van Helsing Academy, a secret school that trains monsters to protect the humans who fear them. But the kids will have to figure out how to use their supernatural powers fast because the Dark Ones have returned. They're trying to resurrect Count Dracula to conquer the world! Can Bram and his friends save humanity—or will they unleash more Monster Problems?

The Mutant Critter Sitter

Grades 2–5
Reading level: Grade 3
Calico

Chloe's summer is off to a great start—until her skateboard breaks. Her dad tells her to get a summer job to learn responsibility and earn enough money for a new one. Chloe finds part-time work as a lab assistant to a not-so-mad scientist, but she never could have prepared for the gene-spliced mutant creatures she has to take care of! It's like pet sitting, but way weirder.

Epic Zero

All Elliott Harkness wants is to be a superhero, like his parents, older sister, and even his dog. But Elliott is a "zero"–which is super-speak for powerless. So while his family is off fighting crime, Elliott is stuck muddling through middle school. Will Elliott find the power to be the epic hero he's always wanted to be–or will he always be just an epic zero?

The Math Inspectors

Grades 4–7
Reading level: Grade 3
Chapter Books

Stanley, Charlotte, Gertie, Felix, and Herman are just your typical twelve-year-old kids. They love hanging out after school. They love burgers and milkshakes. And they love math. And if there's one thing they love more than math, it's solving mysteries! Thankfully their hometown has plenty of mysteries to solve.

THE CASE OF THE CLAYMORE DIAMOND 63

CHAPTER SIX

SITUATION NORMAL

The four friends met at Mabel's Diner to discuss their investigation. Stanley and Charlotte had just finished reporting on their hospital visit when the chocolate milkshakes arrived. Felix's, as usual, was Mondo-sized.

Gertie looked at him with exasperation.

"What? I'm trying to put on some weight," he explained. "It's so hard."

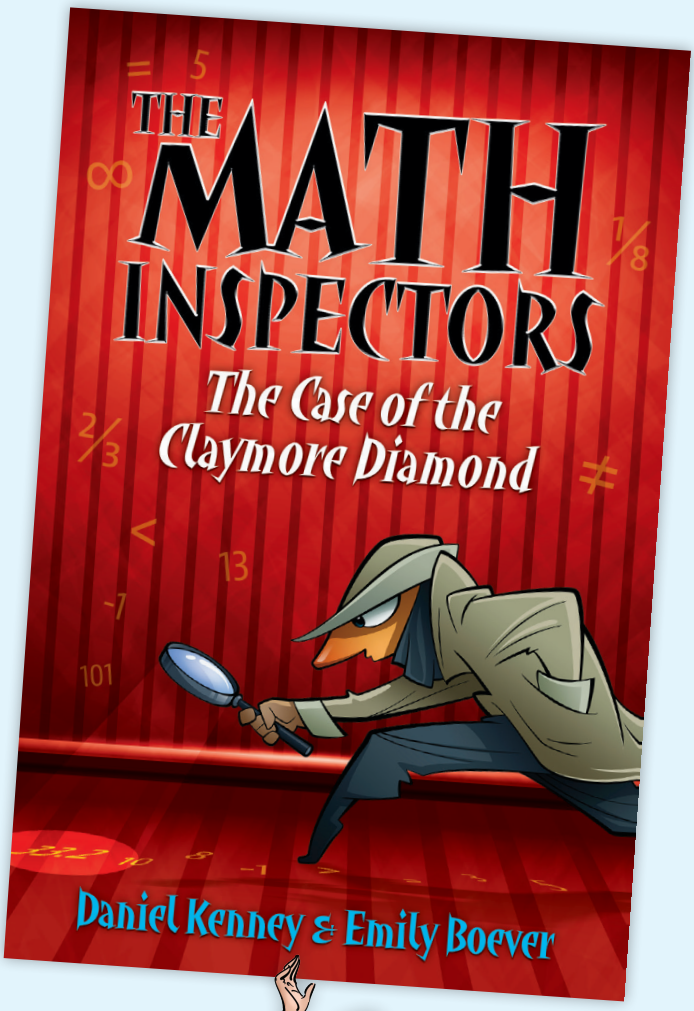

Gertie squinted her eyes at him as she touched her chubby cheeks. "Yes, I don't know how you bear it. I do hate you, Felix Dervish. You know that, right?"

62

"Hey, you act like I *wanna* feel this hungry all the time."

Stanley laughed. "Well, Shaggy," he said, "what did you learn?"

"As I suspected, Mrs. Blump has been completely exonerated," Felix said, slurping his milkshake so loudly that people around the diner looked their way.

anything.

Ben blasts a shot into the net with his left foot.

"Boom!" Ben turns, gesturing like he's firing two six-shooters. "That's what I'm gonna do." He blows the tops of his fingers like he's blowing smoke out of the barrels.

Kai and Aiden appear a moment later to celebrate. Jackson jumps into the celebration scrum. But he keeps a strong eye on the

6

Back of the Net centers around the intertwined lives of the players on the Mt. Pleasant High varsity soccer team. What happens on the field often reflects the ups and downs and drama of daily life. Although the players have different home lives and face challenging situations, they have one thing in common: their desire to win the state championship. But in order to win, the team members will have to not only make magic on the field, but they'll need to learn from the personal obstacles they face.

Diary of a 6th Grade Ninja

Grades 2–6
Reading level: Grade 3
Chapter Books

Chase Cooper is just another scrawny kid at his new school until a group of ninjas recruited him into their clan. It was a world of trouble he wasn't prepared for, which is why he kept a diary to warn other kids about the dangers of becoming a ninja. They say history is destined to repeat itself… well, not if Chase can help it.

while he was an evil dude, there were still rules he followed. A couple of weeks ago, I found out that one of his rules is never revealing the identity of another ninja, even if that ninja was me.

It's the ninja code, which is like the bro code, but with ninjas… except the bro code means you don't date your best friend's ex-girlfriend, sooo… the ninja code is nothing like that.

Jake had just crossed the line.

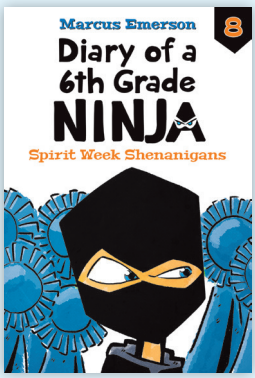

A cloud of white dust exploded at the entrance. I heard the door swing open, along with the sound of several people shuffling around. The door clicked shut again.

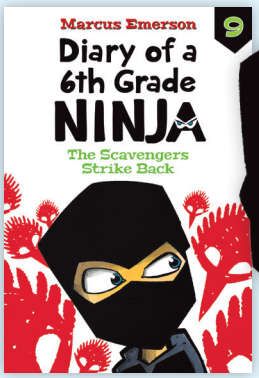

As the dust cleared, black silhouettes came into view. There must have been at least ten shadows standing near the entrance with their arms folded.

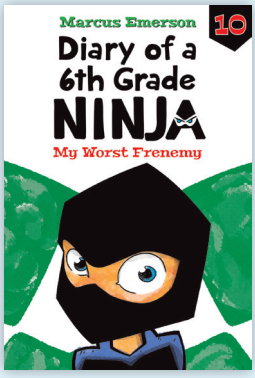

After another second, it was clear that the room was filled with new ninjas – *my* ninjas. That must've been why Wyatt was shocked earlier – he caught a glimpse of them when they opened the door for Daisy.

JOE

THE THREE OF US GAWKED AT THE DOOR and the message. I had seen keyed cars before—but never scratches as deep as this.

"Whoa," Frank said. "A keyed car has got to be the worst kind of prank."

"Worse than a million hurled slushies," Chet agreed.

The word "slushies" made me remember the YouTube video—and the clueless punks who starred in it.

"You guys," I said. "What if this was done by the same slushie-slingers we saw in the video clip?"

Frank gave it a thought, then shook his head. "I don't think so," he said.

"How come?" I asked.

"Because I think it was another Sweet Sixteen reject,"

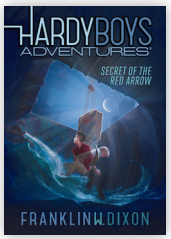

Follow detective brothers Joe and Frank Hardy as they rely on their wits, instincts, and intelligence to solve Bayport's toughest mysteries in this fresh take on the classic sleuthing series.

CHAPTER FOUR

Fishing for a Culprit

Carrie led us through a closed doorway that led to a noisy, hot space. The kitchen lay down a narrow hallway. Just off the hallway was the control room.

Carrie walked over to a large sound system. She reached out, and before I could yell, *Don't touch it—you'll mess up the fingerprints!*, she pulled a tiny flash drive from a USB port.

George held up her hand. "Give it to me," she said. She dug into the black leather tote she'd brought and pulled out her shiny tablet. As soon as Carrie handed her the drive, George had it plugged in and was touching the screen to play the audio file that lay within.

"I DON'T CARE WHAT THEY THINK . . ." Carrie's voice rang out, small and tinny, from the tablet's speakers.

George stopped the recording and looked at me. "Ladies," she said, "I think we've found some evidence."

~ 46 ~

WHEN I GOT HOME AFTER THE FAILED fund-raiser, I felt so exhausted that I got into bed right away. I figured I'd be out like a light as soon as my eyes closed. But instead I tossed and turned for an hour, mulling the whole case over in my head: Carrie's sports complex plan. What it would do to Willow Woods. Barney and the mysterious Ms. Meyerhoff, beloved teacher and Green Club sponsor. How effortlessly Julia had bent the truth to win over Mr. Driscoll. And the recording—which Carrie claimed was manipulated—and her face when we'd

~ 47 ~

Join Nancy Drew and her friends Bess and George as they tackle everything from sabotage to kidnapping, using their impressive powers of deduction and reasoning to creatively crack cases and outsmart their enemies in the clever, contemporary, and delightfully suspenseful Nancy Drew Diaries.

get sleepy."

"I'm already sleepy," Benny told him, "but that doesn't mean I'll go to sleep. I've even practiced pinching myself to stay awake."

When the moon disappeared again, Henry made his way to the chicken yard and stood by the tall post just inside the gate.

The moon continued to rise in the sky as the time passed. Henry worried about Benny, back on the porch, pinching himself to stay awake. He even worried that the prowlers might not come at all.

He leaned against the fence post and sighed. This wasn't the first mystery they had been involved in, but it was the most puzzling. Even if he hadn't liked Cap Lambert as much as he did, it was terrible for someone to be scaring an old man. The plan *had* to work.

Suddenly something caught his eye.

Bluford Series

The Haunting of Hawthorne Harbor

have a specific destination in mind, but she would know it when she saw it. She really should have done more research about Seattle, but it wasn't as though she had known she was about to stuff James in the trunk of Dan's car and drive to the city. That wasn't something you did if you had a real, thought-out plan.

Abby, Tom, and Dan had stopped in Seattle on their way to Hawthorne Harbor. They had spent an afternoon walking around some of the big touristy spots, like the Seattle Center with the Space Needle, and that weird-looking music history museum. They also made their way through Pike Place Market—that little collection of shops and booths that sold everything from pirozhki and used books, to smelly incense and glass hookahs.

Dan had insisted that they go see the fish vendors throw salmon through the air. Tom

29

Fifty years ago, a fire in Hawthorne Harbor burned the high school to the ground. Everyone believed it was just a tragic accident. But something sinister lurks in the town. Fifty years dormant, it's back again. Some people want to stop it. But others do not!

Invisible Six

Grades 4–9
Reading level: Grade 5
Claw

Six secret operatives are the military's top experts in covert ops and rescue missions. But this elite special force doesn't exist—at least not in the public eye. No one knows where they come from or to where they return. The group gathers for the most dangerous, most difficult, most important missions and often operate in extreme conditions. They are known only by their code name: Invisible Six.

This series traces the tormented paths of an American special operative, a French saboteur, a Jewish resistance fighter, and a Polish farmer as they navigate the heartbreaking social and political upheavals of World War II. Their stories converge when they end up at a brutal Nazi death camp in the heart of Poland. As the four together face executions, disease, betrayals, and more, they learn to unite around an enduring commitment to human dignity and a quest to escape at all costs.

Texas Fridays

Grades 6+
Reading level: Grade 4
EPIC Escape

In Texas Fridays, six high school football teams are profiled from the perspective of a single player. Each young man struggles in his own way to avoid injuries and deal with personal relationships and recruiting pressure—all while stepping into the role of the star player. The pomp and pageantry of Texas high school football takes center stage, as six high school athletes from completely different backgrounds chase down their dreams under the Friday night lights.

Vampire Wars

The death of an Elder Keeper marks the uprising of the Praedari, a faction of vampires who feel that it is their right to hunt—openly—and to kill. As mortals' eyes are opened to the existence of vampires, one Keeper starts seeing that the two factions aren't as different as they seem. Vampire Wars challenges binary notions of right and wrong, love and hate, predator and prey.

Werewolf Council

"The story is good, not just young-adult good, but fully-matured good. [Manoa's] voice lends an extremely vivid visual feel to the story and places the reader in the center of the action. Werewolf Council provides an engaging framework for young adults to approach... complex moral dilemmas."

– Pop Mythology, October 2017

The lore has existed for centuries, passed on and reinterpreted through generations as folktales, and urban legends—stories of uncontrollable beasts, disguised remnants of an ancient evil awaiting its chance to bring ruin upon the world. Now Nathaniel Wallace and Riley McKnight will learn the truth about werewolves and the secret order tasked with keeping them peaceful and hidden. Through differing beliefs and ideologies that threaten this balance, the friends must decide if co-existence is possible.

Treasure Hunters

Grades 6+
Reading level: Grade 4
EPIC Escape

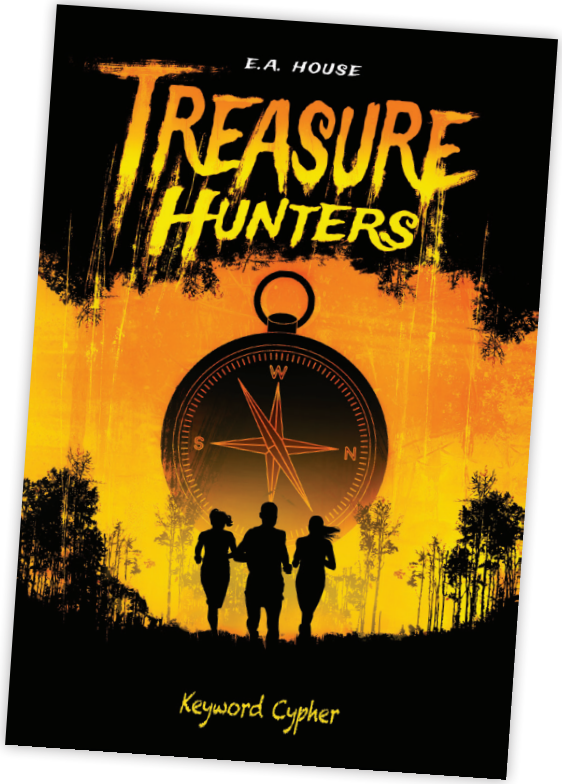

When Chris Kingsolver's aunt Elsie sends him a cryptic message after her death, it leads Chris, his cousin Carrie, and their new friend Maddison on a quest for the location of the *San Telmo*, a famous—and famously lost—sunken treasure ship. To discover who killed Aunt Elsie and where the *San Telmo* lies, they must decode the clues, uncover the secrets Maddison's father is hiding, and unmask the shadowy figures dogging their investigation.

Earth Aliens

Grades 6+
Reading level: Grade 4
EPIC Escape

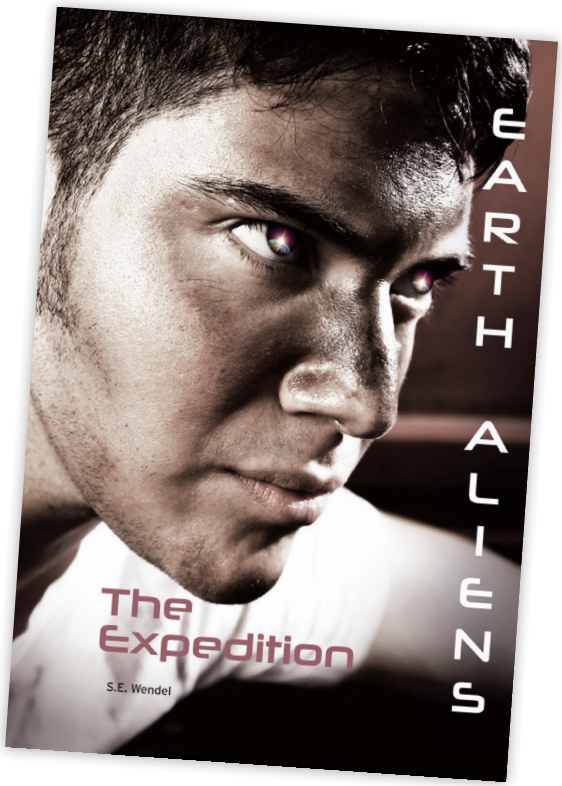

The end of days on Earth has come. If humanity is to survive, they must do so amongst the stars. In a last-ditch effort, a pioneer group of colonists are shot into space, making a seven-year journey to a new planet, and hopefully, a new home. Although the journey will prepare them to build their new colony, nothing can prepare them for the trials of sharing a planet with another intelligent species. Who will be the masters of Terra Nova—the natives or the Earth aliens?

Every year, the Ara School of Magic searches for the next generation of witches to train. Graduates go on to serve in castles or set up reputable magic shops across the land. For years, Namu has been training in secret—not always with success. But this year, Namu feels ready. She's perfected a spell that's bound to impress the judges and land her a spot at Ara. And once her tenure begins, she vows to rise through the ranks to become the top student at the school. But there's more to the school than the fame behind the name—a secret that could unravel everything.

漫画 MANGA

Grades 3–7
Reading level: Grade 2
Graphic Novels

In a world where Disney's greatest villains have been condemned to live in exile on the Isle of the Lost, Mal, Evie, Carlos, and Jay are given a chance to redeem themselves and prove they are greater than the sins of their parents by attending Auradon Prep and living among the good guys. This graphic novel series follows the Rotten Core in their chance for glory and other adventures.

After an explosion of interdimensional proportions at her cousin's lab, Kamala Khan suddenly has a doppelganger to deal with. As Ms. Marvel, it's her duty to help out the newcomer, but something doesn't feel quite right. Kamala's powers are on the fritz, and she suspects that this new hero-in-training isn't trustworthy. And why has everything around her turned into a Bollywood set?

Greek Mythology

That's his Achilles heel. It felt like I was lost in a labyrinth! She has the weight of the world on her shoulders. You opened a real Pandora's box with that move! We're all familiar with these idioms. But where did they come from? Find out with this beautifully illustrated series.
